Description

The Intention Disc is a disc or pendant of composite mineral elements infused with Blueprint Frequencies matching cellular groups in the human body. It can be programmed to align the human body with a desired outcome or intention. The Disc clears toxic waveform from food, liquid and personal care products. It clears active memory of emotional trauma stored in cellular memory.

Benefits

The Symbolic and Blueprint Frequencies of the Intention Disc provide it with the unique quality of clearing toxic waveform that disrupts cell communication and the functioning of the body. The memory of traumatic events is often stored as a waveform in the water of our body.

At the cellular level, the Intention Disc may assist in detoxifying frequencies that are not compatible with blueprint human frequencies. For the highest efficacy the Intention Disc should be used in conjunction with wearing the ZPG pendant.

Users report the Intention Disc clears the toxic memory and often eases pain associated with the event. (Please see Directions for Use on the reverse.)

How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person wears the ZeroPoint Intention Disc, their body begins to 'resonate with the frequencies' that are in the disc. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Intention Disc, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

Directions for Use

Injury and Emotional Trauma

Users report significant relief from stress, grief and pain associated with emotional trauma or injury when using the Intention Disc to clear toxic waveform.

By Self: Hold the Intention Disc in either hand and keep a clear thought in mind of the trauma, the death of a loved one or an accident, injury and give an instruction to "clear emotional trauma from the memory of this event." Continue to hold the Disc until you feel a 'release', a sigh, or yawn, peace within the body or lack of symptoms. You may need to do this more than once. When traumatic cellular memory is cleared the body can balance and heal itself.

With Assistant: Hold the Intention Disc in either hand and ask your assistant to apply kinesiology on your opposite arm. With the kinesiology arm at shoulder height the assistant presses down while you hold strong, not letting the arm fall and keeping thoughts of the trauma in mind. As the assistant presses and you hold strong the ego is engaged and kept busy while the Intention Disc aligns the body to clear the traumatic waveform from cellular memory. When the arm falls the toxic waveform of emotional trauma has been cleared. This method usually does not need to be repeated. When traumatic cellular memory is cleared the body can balance and heal itself.

Organ, Gland and Body Detoxification

Users report the Intention Disc assists in the detoxification of organs, glands and other body parts. Hold the Intention Disc in either hand and keep a clear thought in mind of the organ, gland or body part and give an instruction to "clear toxic waveform from lungs, spleen or knee." Continue to hold the Disc until you feel a 'release', a sigh, or yawn, peace within the body or lack of symptoms. You may need to do this more than once.

Goal Setting:

The Symbolic and Blueprint Frequencies of the Intention Disc align the body with the desired outcome of a goal or intention. Simply hold the Disc, however you desire, and state your goal or intention, clearly. This is enough to produce results. Some people may need to do no more than 3 goals or intentions at a time, at first. If you have not achieved the results desired; write statement several times; verbalize the statement aloud; or state your intention differently, repeat the process for a few days. Follow your intuition and test the Disc different ways, experiment. Practice with easy agendas with a clear date for it to come to be to measure your skills. Fine tune your programming.

When intentions have been completed or if you wish to change the programming the Disc may be cleared to make room for new intentions.

To Clear the Disc: "It is by Intent and purpose through my Higher Self, to immediately clear all programs from this disc...Begin Harmonics Now!" The disc is now "Open" for new intention statements.

Directions for Clearing Liquid and Food

For a 12 oz glass of water, place the disc under the container of water for approximately 10 seconds or approximately 2 min for a gallon or more. This applies to most other potable liquids. NOTE: The Intention Disc does not filter the water. Clear toxic frequencies from food by holding the Intention Disc close to the food or setting under dish, bowl or cup, for a few moments. Leave an extra intention disc in your water pitcher and the refrigerator. The disc may be held above or below the substance while the intention is set.

Testimonials

"After reading about how others have responded emotionally to the Intention Disc, I began reflecting on my use of this pendant. I wear my disk as a necklace every day to work. I work at a hospital which is rife with patient drama, nurse/doctor/staff conflicts and inter-office politics. It can be a very emotionally draining and contentious atmosphere in which to work. I have even been the target of a fair amount of (unwarranted) character assassination. As I said, after reading about the emotional aspects of wearing the Intention Disc, I began to realize how every day I've gone to work, somehow, even though I was initially feeling depressed, unmotivated or worried about what the day held and, except for a few of the worst days, I have been able to go in with enthusiasm and a smile on my face. I really do believe the disc helps me process my feelings and fortify me for the day. I do notice I feel stronger and more self-assured without there really being any other reasons for this confidence other than I am wearing the disk." - Dakotah D., KS

"My first time holding the intention disk was indeed a "wake up call". I immediately felt a sensation in the back of my neck, rising up and over my head. Kind of like an 'energetic pop'. Then a feeling of relief and alignment. I had experienced a traumatic neck and back injury last year, causing my Atlas to be misaligned. I had a treatment a few years ago to align it, and I could tell it was out. What relief! In just a few moments my highest intent for healing took place. I am truly grateful." - Pamela C., HI
